# Management Discussion and Analysis

## SUMMARY

In the first half of 2015, the Group further promoted its business development, thereby further consolidating and raising its market position and capital strength, leading to further enhancement in its comprehensive strengths.

For the six-month period ended 30 June 2015, the Group's revenue amounted to RMB1,581 million, representing a slight increase compared to that of the corresponding period of last year. The Group's net profit amounted to RMB156 million, representing a slight decrease compared to that of the corresponding period of last year.

## Market environment

In 2015, China's domestic and foreign economic environment remains intricate. The global economic recovery is tortuous and slow, and with the Chinese economy in a critical structural adjustment and transformation stage, the fundamentals for economic recovery have yet to be further consolidated. The Gross Domestic Products (GDP) for the first half of the year grew 7.0% year-on-year in terms of comparative prices, with a relatively large downward pressure on the domestic economy. With the Chinese government taking the initiatives to adapt and lead the economy to the "new normal", steadfastly insisting on reformation and innovation, as well as structural adjustments and transformation and by proactively innovating measures on macro-controls, the domestic economy has achieved a slow but stable and improving trend. On the whole, the fundamental development factors of the Chinese economy have not changed.

As urbanization in China accelerates, various cities have to face serious traffic congestions caused by high concentration of urban population and the ever increasing numbers of private vehicles. The strategy of the Chinese government is to insist on the priority development of public transportation in order to solve problems caused by traffic congestions and integrated urban development. Urban rail transit, as an energy saving and environment-friendly mode of transportation, and because of its mass transit capacities and high speed, is an effective solution to ease traffic congestion problems and will continue to be an industry strongly promoted by the Chinese government for a substantial period of time in the future. For the past year, the National Development and Reform Commission has successively approved the construction plans or adjustment plans of urban rail transit in cities including Zhengzhou, Nantong, Nanning, Hohhot, Nanjing, Chengdu, Nanchang, Wuhan and Changchun.

Meanwhile, under the influence of the Chinese “new normal” economy, the market development of urban rail transit has to face certain adjustments in the short run, mainly in terms of adjustments to be made to the investment entities of urban rail transit projects. To further regulate debt management of local governments and promote market transformation of financing platform companies, in September 2014, the Chinese government promulgated “*The Opinions on Issues Concerning the Enhancement of Debt Management of the Local Governments*” (《關於加強地方政府性債務管理的意見》) to vigorously implement the Public-Private-Partnership (PPP) capital cooperation model and various Chinese government departments and markets are significantly exploring and advancing the PPP model in 2015. Affected by the changes in the mode of investment, industries which are mainly directed by governmental investments, including urban rail transit projects, are experiencing temporary adjustments by stages in their construction development within short term.

## Revenue

The Group generates its revenue from the design, survey and consultancy segment as well as the construction contracting segment where the Group provides services for infrastructure construction (especially urban rail transit).

For the six-month period ended 30 June 2015, the Group achieved a revenue of RMB1,581 million, representing an increase of RMB41 million or 2.7% as compared to RMB1,540 million for the corresponding period of last year. Such increase was mainly attributable to the smooth progress of the projects on hand in the construction contracting segment, which recorded an increase of RMB85 million as compared to that of the corresponding period of 2014.

Set out below is revenue from each business segment:

Business segments	For the six-month period ended 30 June	
	2015 (RMB'000) (Unaudited)	2014 (RMB'000) (Unaudited)
Design, survey and consultancy	<b>855,304</b>	899,098
Of which:		
(i) urban rail transit construction	<b>694,068</b>	719,220
(ii) industrial and civil construction and municipal engineering	<b>161,236</b>	179,878
Construction contracting	<b>725,775</b>	640,490
Total	<b>1,581,079</b>	1,539,588

### **Design, survey and consultancy segment**

The design, survey and consultancy segment includes design, survey and consultancy services for urban rail transit construction as well as industrial and civil construction and municipal engineering. In 2015, against the backdrop of macro-economic transformation and adjustment faced by the Chinese economy, an obvious downtrend of economy and changes in the mode of government investments, the Group, by fully leveraging on its technical strengths in the industry and by optimizing its traditional and core business, enhanced its core competitiveness and actively expanded the market, thereby basically maintained a steady development of the business segment notwithstanding the changes of the external market environment.

For the six-month period ended 30 June 2015, the Group's revenue from the design, survey and consultancy segment amounted to RMB855 million, representing a decrease of RMB44 million or 4.9% as compared to RMB899 million for the corresponding period of 2014. Among that, revenue from the urban rail transit construction business achieved RMB694 million, representing a decrease of RMB25 million as compared to RMB719 million for the corresponding period of 2014; and revenue from the industrial and civil construction and municipal engineering business amounted to RMB161 million, representing a decrease of RMB19 million as compared to RMB180 million for the corresponding period of 2014.

### **Construction contracting segment**

The Group's construction contracting segment focuses on the services for urban rail transit construction projects and related infrastructure construction projects. The construction contracting projects undertaken by the Group covered major cities of China, including Beijing, Guangzhou, Qingdao, Urumqi and Dalian.

For the six-month period ended 30 June 2015, the Group's revenue from the construction contracting segment was RMB726 million, representing an increase of RMB86 million or 13.4% as compared to RMB640 million for the corresponding period of last year. Such an increase was mainly attributable to the adherence to the development strategies to expand urban rail transit construction contracting business and the adoption of the principle of controllable risks, as well as the smooth progress of the projects on hand.

## Cost of sales

For the six-month period ended 30 June 2015, the cost of sales incurred by the Group was RMB1,268 million, representing an increase of RMB79 million or 6.6% as compared to RMB1,189 million for the corresponding period of last year. This was mainly attributable to the fact that faced with changes in the market conditions, the Group further opened up the market in other cities, which led to a relative increase in costs.

For the six-month period ended 30 June 2015, cost of sales of the Group's design, survey and consultancy segment decreased to RMB579 million for the current period from RMB592 million for the corresponding period of last year, representing a decrease of 2.2%. Among that, the cost of sales of the urban rail transit construction business of the Group's design, survey and consultancy segment decreased to RMB451 million for the current period from RMB460 million for the corresponding period of last year, representing a decrease of 2.0%. The cost of sales of industrial and civil construction and municipal engineering business of the design, survey and consultancy segment decreased to RMB128 million for the current period from RMB132 million for the corresponding period of last year, representing a decrease of 3.0%.

For the six-month period ended 30 June 2015, the cost of sales of the Group's construction contracting segment increased to RMB689 million for the current period from RMB598 million for the corresponding period of last year, representing an increase of 15.2%, which was mainly due to the commencement of construction of certain projects with higher total costs in the second half of 2014, resulting in an increase of costs compared with the corresponding period of last year.

### **Gross profit and gross margin**

For the six-month period ended 30 June 2015, the gross profit of the Group was RMB314 million, representing a decrease of RMB36 million or 10.29% as compared to RMB350 million for the corresponding period of last year, while the consolidated gross margin decreased from 22.7% to 19.8%. The decrease in gross profit and gross margin was mainly due to the fact that the percentage of total operating revenue attributable to the design, survey and consultancy segment (with a higher gross profit) decreased from 58.4% for the corresponding period of last year to 54.1% for the current period. The gross profit of design, survey and consultancy segment decreased from RMB308 million for the corresponding period of last year to RMB276 million for the current period, representing a decrease of RMB32 million or 10.4% as compared to that of the corresponding period of last year. The gross margin of design, survey and consultancy segment decreased from 34.2% for the corresponding period of last year to 32.3% for the current period, which is mainly due to the business development of the Group and the increase in the number of projects in other cities, which have a relatively higher cost than those in Beijing. The gross profit of the construction contracting segment decreased from RMB42 million for the corresponding period of last year to RMB37 million for the current period. The gross margin of the construction contracting segment decreased from 6.6% for the corresponding period of last year to 5.1% for the current period.

### **Other income and gains**

For the six-month period ended 30 June 2015, other income and gains of the Group were RMB35.91 million, representing an increase of RMB22.28 million, as compared to RMB13.63 million for the corresponding period of last year, primarily attributable to the significant increase in interest income and investment gains due to the increase in deposits and the purchase of related financial products by the listing proceeds. The wealth management returns and interest income were RMB27.18 million in the first half of 2015.

### **Selling and distribution expenses**

For the six-month period ended 30 June 2015, selling and distribution expenses of the Group were RMB27.02 million, representing an increase of RMB0.57 million or 2.2% as compared to RMB26.45 million for the corresponding period of last year. The increase in selling and distribution expenses was mainly due to the fact that faced with changes in the market conditions, the Group further invested in opening up the market, which led to an increase in related cost.

### **Administrative expenses**

For the six-month period ended 30 June 2015, administrative expenses of the Group were RMB118.35 million, representing a decrease of RMB1.87 million or 1.6% as compared to RMB120.22 million for the corresponding period of last year, which was mainly due to the fact that the Group adopted meticulous and precise calculations and strengthened cost control.

### **Other expenses**

For the six-month period ended 30 June 2015, other expenses of the Group were RMB9.53 million, representing a decrease of RMB2.40 million or 20.1% as compared to RMB11.93 million for the corresponding period of last year. The decrease in other expenses was mainly due to a decrease in the provisions for bad debts relating to trade receivables and other receivables for the period.

### **Finance costs**

For the six-month period ended 30 June 2015, financial costs of the Group were RMB5.68 million, which was due to the discounting of the Group's new long-term receivables for the current period.

### **Income tax expense**

For the six-month period ended 30 June 2015, the income tax expense of the Group was RMB33.34 million, representing a slight decrease as compared to the corresponding period of last year.

## Net Profit

For the six-month period ended 30 June 2015, the net profit of the Group was RMB156 million, representing a decrease of RMB16 million or 9.3% as compared to RMB172 million for the corresponding period of last year.

## Cash flows

The table below sets forth the cash flows of the Group for the periods indicated:

	For the six-month period ended 30 June	
	2015 (RMB'000) (Unaudited)	2014 (RMB'000) (Unaudited)
Net cash outflows from operating activities	<b>(680,277)</b>	(130,295)
Net cash inflows/(outflows) from investing activities	<b>1,012,024</b>	(14,457)
Net cash inflows/(outflows) from financing activities	<b>28,500</b>	(79,141)
Net increase/(decrease) in cash and cash equivalents	<b>360,247</b>	(223,893)

The net cash outflows from operating activities amounted to RMB680 million for the six-month period ended 30 June 2015, representing an increase of RMB550 million as compared to that of the corresponding period of 2014, which was mainly due to the investment of RMB200 million at the early stage of the newly undertaken the Outer Ring North Road PPP project in Anqing City as well as an increase of RMB200 million in the historical settlement for engineering projects. Net cash inflows from investing activities was RMB1,012 million, which was mainly due to the cash inflows from the redemption of financial products and time deposits due. The net cash inflows from financing activities was RMB29 million, which was mainly due to the cash flows resulting from the capital contributions by non-controlling shareholders of the new subsidiaries of the Company in the current period.

## Pledge of assets, contingencies and capital commitments

For the six-month period ended 30 June 2015, the Group had no pledge of assets.

As at 30 June 2015, the Group did not have any outstanding mortgages, charges, debentures, loan capital, bank loans or overdrafts, debt securities or other similar indebtedness, finance leases or hire purchase commitments, acceptance credits or guarantees or other material contingent liabilities.

As at 30 June 2015 and 31 December 2014, the capital commitments of the Group were as follows:

	As at 30 June 2015 (RMB'000) (Unaudited)	As at 31 December 2014 (RMB'000) (Audited)
Contracted, but not provided for:		
Property, plant and equipment	46,550	70,106
Authorised, but not contracted for:		
Equity Investment	6,000	—

## Capital structure and financial resources

The capital structure of the Company comprises Domestic Shares and H Shares. The Group does not have any borrowings and all the working capital is self-owned funds.

## Gearing ratio<sup>(1)</sup>

As at 30 June 2015, the Group had no interest-bearing borrowings, therefore its gearing ratio was 0.0%.

Note:

- (1) Gearing ratio represents total interest-bearing borrowings as at the reporting date divided by total equity as at the same reporting date.

### **Exchange rate risk**

The business operations of the Group are mainly located in China with most of its transactions settled in RMB. The assets and liabilities of the Group that involve the exchange rate risk and the transactions arising from operations are mainly related to U.S. dollars and Hong Kong dollars. The Directors believe that the exchange rate risk may or will not have a material adverse impact on the financial position of the Group.

### **Employees**

As at 30 June 2015, the Group had approximately 3,903 employees. For the six-month period ended 30 June 2015, the total employee costs of the Group were RMB452 million, representing a decrease of RMB5 million as compared to RMB457 million for the corresponding period of last year.

The Directors of the Company fully understand the importance of maintaining good relationship with employees. The Group has therefore implemented financial incentives and other human resource strategies. The remuneration payable by the Group to employees included basic salaries, bonuses and allowances.

### **Events after the balance sheet date**

The Group did not have any significant events after the balance sheet date.

### **Profit distributions and interim dividends**

The Group will not make any profit distributions for the interim period nor pay any interim dividends.

## BUSINESS PROSPECTS

Although urban rail transit construction in China has achieved notable development in recent years, and the Chinese economy has entered the “new normal” development period, China is still lagging far behind the developed countries in terms of the rail transit density. Notably, urban rail transit in China is still at a relatively low level, leaving extensive rooms for further development. The accelerated urbanization in China, coupled with the further stepped-up integration of Beijing-Tianjin-Hebei areas and the promotion of regional rail transit among cities, will provide opportunities for business developments of the Group.

The Chinese government is actively promoting the market transformation of financing platform companies and by vigorously promoting the PPP model, the investment entities of rail transit are increasingly diversified and marketised, which will have a profound impact on market competition. With an integrated service capabilities comprising traditional designs, project contracting and a financing platform from the listing, the Group is facing a very good opportunity for further development. In May 2015, the Group successfully won the bid for the PPP construction project of Outer Ring North Road in Anqing City. The project is the first batch of PPP projects launched in China, which will have demonstration effects for the Company and serves to provide the Company an edge in seizing the PPP market in areas of urban rail transit and relevant infrastructure.

In face of the favorable development opportunities, the Group will continue to deepen and promote its client oriented operating principles. By fully utilizing its own solid technical strengths, and led by its design business and through investments, the Group will strengthen its design and consultancy business and general contracting business and extend into new businesses such as PPP projects. The Group will also strengthen the functional constructions of its headquarters, optimize its business unit management system, and build up its ERP management platform. In addition, the Group will enhance its operation and control systems, speed up the use of equity incentive mechanism, reform its remuneration distribution system, with a view to raising the overall strength and the level of shareholders’ returns and to become a leading comprehensive urban construction services provider in the industry with international influence.

## To the shareholders of Beijing Urban Construction Design & Development Group Co., Limited

*(Incorporated in the People's Republic of China as a joint stock limited company with limited liability)*

### INTRODUCTION

We have reviewed the accompanying interim condensed consolidated statement of financial position of Beijing Urban Construction Design & Development Group Co., Limited (the "Company") and its subsidiaries (together, the "Group") as at 30 June 2015 and the interim condensed consolidated statements of profit or loss and other comprehensive income, changes in equity and cash flows for the six-month period then ended and explanatory notes. The Main Board Listing Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Hong Kong Stock Exchange") require the preparation of a report on interim condensed consolidated financial statements to be in compliance with the relevant provisions thereof and International Accounting Standard 34 *Interim Financial Reporting* ("IAS 34") issued by the International Accounting Standards Board.

The directors of the Company are responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with IAS 34. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review. Our report is made solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

## SCOPE OF REVIEW

We conducted our review in accordance with International Standard on Review Engagements 2410 *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of interim condensed consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and, consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

# Notes to the Interim Condensed Consolidated Financial Statements

30 June 2015

## 1. CORPORATE INFORMATION

Beijing Urban Construction Design & Development Group Co., Limited (the “Company”) began its operations in 1958 in the PRC as a state-owned professional survey and design institute founded specifically for the survey and design of Beijing Subway Line 1. Subsequent to a series of reorganisations, the Company was then converted into a joint stock company with limited liability and renamed as Beijing Urban Construction Design & Development Group Co., Limited (北京城建設計發展集團股份有限公司) on 28 October 2013.

The Company’s H shares were issued and listed on the Main Board of The Stock Exchange of Hong Kong Limited (“Stock Exchange”) in July 2014.

The registered office address of the Company is 5 Fuchengmen North Street, Xicheng District, Beijing, the PRC.

During the period, the Company and its subsidiaries (collectively referred to as the “Group”) were involved in the following principal activities:

- Design, survey and consultancy services for urban rail transit and urban rail transit related industrial and civil construction and municipal engineering projects
- Construction contracting services for urban rail transit

In the opinion of the directors of the Company (the “Directors”), the Company’s holding company and the ultimate holding company is Beijing Urban Construction Group Co., Ltd. (北京城建集團有限責任公司, “BUCG”), which is wholly owned by the State-owned Assets Supervision and Administration Commission (“SASAC”) of the People’s Government of Beijing Municipality of the PRC.

## **2. BASIS OF PREPARATION AND CHANGES TO THE ACCOUNTING POLICIES**

### **2.1 Basis of preparation**

The interim condensed consolidated financial statements for the six months ended 30 June 2015 have been prepared in accordance with International Accounting Standard ("IAS") 34 *Interim Financial Reporting* and the disclosure requirements of the Rules Governing the Listing of Securities on the Hong Kong Stock Exchange ("Listing Rules").

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements for the year ended 31 December 2014.

The interim condensed consolidated financial statements are presented in Renminbi ("RMB") and all values are rounded to the nearest thousand, except when otherwise indicated.

### **2.2 Impact of amended International Financial Reporting Standards**

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those used in the preparation of the Group's annual financial statements for the year ended 31 December 2014, except for the adoption of the revised International Financial Reporting Standards ("IFRSs") that are effective from 1 January 2015.

## **2. BASIS OF PREPARATION AND CHANGES TO THE ACCOUNTING POLICIES** (Continued)

### **2.2 Impact of amended International Financial Reporting Standards** (Continued)

The nature and the impact of each new standard or amendment is described below:

#### **Amendments to IAS 19 Defined Benefit Plans: Employee Contributions**

Amendments to IAS 19 require an entity to consider contributions from employees or third parties when accounting for defined benefit plans. Where the contributions are linked to service, they should be attributed to periods of service as a negative benefit. These amendments clarify that, if the amount of the contributions is independent of the number of years of service, an entity is permitted to recognise such contributions as a reduction in the service cost in the period in which the service is rendered, instead of allocating the contributions to the periods of service. These amendments are effective for annual periods beginning on or after 1 July 2014. These amendments are not relevant to the Group, since none of the entities within the Group has defined benefit plans with contributions from employees or third parties.

#### **Annual Improvements 2010-2012 Cycle**

These improvements are effective for annual periods beginning on or after 1 July 2014 and the Group has applied these amendments for the first time in these interim condensed consolidated financial statements. They include:

## 2. BASIS OF PREPARATION AND CHANGES TO THE ACCOUNTING POLICIES (Continued)

### 2.2 Impact of amended International Financial Reporting Standards (Continued)

#### Annual Improvements 2010-2012 Cycle (Continued)

##### *IFRS 8 Operating Segments*

The amendment is applied retrospectively and clarifies that:

- An entity must disclose the judgements made by management in applying the aggregation criteria in paragraph 12 of IFRS 8, including a brief description of operating segments that have been aggregated and the economic characteristics (e.g., sales and gross margins) used to assess whether the segments are 'similar';
- The reconciliation of segment assets to total assets is only required to be disclosed if the reconciliation is reported to the chief operating decision maker, similar to the required disclosure for segment liabilities.

##### *IAS 16 Property, Plant and Equipment and IAS 38 Intangible Assets*

The amendment is applied retrospectively and clarifies in IAS 16 and IAS 38 that the asset may be revalued by reference to observable data by either adjusting the gross carrying amount of the asset to market value or by determining the market value of the carrying value and adjusting the gross carrying amount proportionately so that the resulting carrying amount equals the market value. In addition, the accumulated depreciation or amortisation is the difference between the gross and carrying amounts of the asset. The Group did not record any revaluation adjustments during the current interim period.

## 2. BASIS OF PREPARATION AND CHANGES TO THE ACCOUNTING POLICIES (Continued)

### 2.2 Impact of amended International Financial Reporting Standards (Continued)

#### Annual Improvements 2010-2012 Cycle (Continued)

##### *IAS 24 Related Party Disclosures*

The amendment is applied retrospectively and clarifies that a management entity (an entity that provides key management personnel services) is a related party subject to the related party disclosures. In addition, an entity that uses a management entity is required to disclose the expenses incurred for management services. This amendment is not relevant for the Group as it does not receive any management services from other entities.

#### Annual Improvements 2011-2013 Cycle

These improvements are effective for annual periods beginning on or after 1 July 2014 and the Group has applied these amendments for the first time in these interim condensed consolidated financial statements. They include:

##### *IFRS 3 Business Combinations*

The amendment is applied prospectively and clarifies for the scope exceptions within IFRS 3 that:

- Joint arrangements, not just joint ventures, are outside the scope of IFRS 3
- This scope exception applies only to the accounting in the financial statements of the joint arrangement itself

The Group does not have any joint arrangement, and thus this amendment is not relevant for the Group and its subsidiaries.

## 2. BASIS OF PREPARATION AND CHANGES TO THE ACCOUNTING POLICIES (Continued)

### 2.2 Impact of amended International Financial Reporting Standards (Continued)

#### Annual Improvements 2011-2013 Cycle (Continued)

##### *IFRS 13 Fair Value Measurement*

The amendment is applied prospectively and clarifies that the portfolio exception in IFRS 13 can be applied not only to financial assets and financial liabilities, but also to other contracts within the scope of IFRS 9 (or IAS 39, as applicable). The Group does not apply the portfolio exception in IFRS 13.

##### *IAS 40 Investment Property*

The description of ancillary services in IAS 40 differentiates between investment property and owner-occupied property (i.e., property, plant and equipment). The amendment is applied prospectively and clarifies that IFRS 3, and not the description of ancillary services in IAS 40, is used to determine if the transaction is the purchase of an asset or a business combination. In previous periods, the Group has relied on IFRS 3, not IAS 40, in determining whether an acquisition is of an asset or is a business acquisition. Thus, this amendment does not impact the accounting policy of the Group.

## 2. BASIS OF PREPARATION AND CHANGES TO THE ACCOUNTING POLICIES (Continued)

### 2.3 Issued but not yet effective IFRSs

## **2. BASIS OF PREPARATION AND CHANGES TO THE ACCOUNTING POLICIES** (Continued)

### **2.3 Issued but not yet effective IFRSs** (Continued)

The Group is in the process of making an assessment of the impact of these new and revised IFRSs upon initial application.

## **3. OPERATING SEGMENT INFORMATION**

For management purposes, the Group is organised into business units based on their services and has two reportable operating segments as follows:

- (a) Design, survey and consultancy – this segment engages in the provision of services on designing, surveying and mapping, monitoring and consulting services in the engineering of urban rail transit, municipal management and construction; and
- (b) Construction contracting – this segment engages in the provision of services relating to urban rail transit construction contracting.

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resources allocation and performance assessment. Segment performance is evaluated based on reportable segment profit or loss, which is a measure of adjusted profit or loss before tax. The adjusted profit or loss before tax is measured consistently with the Group's profit or loss before tax except that unallocated interest income and other gains are excluded from such measurement.

Segment assets exclude deferred tax assets, unallocated cash and cash equivalents, unallocated pledged deposits and financial products included in available-for-sale investments (current portion) as these assets are managed on a group basis.

### 3. OPERATING SEGMENT INFORMATION (Continued)

Segment liabilities exclude tax payable and dividends payable to shareholders as they are managed on a group basis.

Intersegment sales and transfers are transacted with reference to the selling prices used for sales made to third parties at the then prevailing market prices.

### 13. TRADE AND BILLS RECEIVABLES

The Group's trading terms with its customers are mainly on credit, except for new customers, where payment in advance is normally required. The credit period is generally one month, extending up to three months for major customers. Each customer has a maximum credit limit. The Group seeks to maintain strict control over its outstanding receivables and has a credit control department to minimise credit risk. Overdue balances are reviewed regularly by senior management. In view of the aforementioned and the fact that the Group's trade receivables relate to a large number of diversified customers, there is no significant concentration of credit risk. The Group does not hold any collateral or other credit enhancements over its trade receivable balances. Trade receivables are non-interest-bearing.

Fellow subsidiaries	5,728	5,720
	<b>6,810</b>	<b>7,026</b>

The above related party transactions were conducted in accordance with the terms mutually agreed between the parties.

BUCG guaranteed certain of the Group's letters of guarantee for bidding, performance and prepayment for projects undertaken and the outstanding balance of such letters of guarantee as at 30 June 2015 was RMB192 million (Unaudited) (31 December 2014: RMB241 million).

## 20. RELATED PARTY TRANSACTIONS (Continued)

- (a) The Group had the following material transactions with related parties for the six-month periods ended 30 June 2015 and 2014: (Continued)

In addition, BUCG issued certain letters of guarantee for bidding, performance and prepayment to customers in respect of its operation of urban rail transit construction contracting. As at 30 June 2015, the balance of the relevant letters of guarantee was RMB754 million (Unaudited) (31 December 2014: RMB823 million). Pursuant to a group reorganisation of urban rail transit construction contracting and consultancy services of BUCG and its subsidiaries in preparation for the initial listing of the Company's shares on the Main Board of the Hong Kong Stock Exchange, which was completed on 31 December 2012, BUCG transferred the operation related to urban rail transit construction contracting services to the Company. The title of such outstanding letters of guarantee is in the process of being transferred from BUCG to the Company.

The Group is indirectly controlled by the PRC government and operates in an economic environment predominated by entities directly or indirectly owned or controlled by the government through its agencies, affiliates or other organisations (collectively "State-owned Enterprises" ("SOEs")). During the six-month periods ended 30 June 2015 and 2014, the Group entered into extensive transactions with other SOEs, such as bank deposits, rendering and receiving of design, survey and consultancy services and construction contracting services, and purchase of inventories and machinery. In the opinion of the directors of the Company, the transactions with SOEs are activities conducted in the ordinary course of business, and the dealings of the Group have not been significantly or unduly affected by the fact that the Group and those SOEs are ultimately controlled or owned by the PRC government. The Group has also established pricing policies for rendered services and such pricing policies do not depend on whether or not the customers are SOEs.

## 22. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

The carrying amounts and fair values of the Group's financial instruments, other than those with carrying amounts that reasonably approximate to fair values as at the end of the reporting period, are as follows:

	Carrying amount		Fair value	
	As at 30 June 2015 RMB'000 (Unaudited)	As at 31 December 2014 RMB'000 (Audited)	As at 30 June 2015 RMB'000 (Unaudited)	As at 31 December 2014 RMB'000 (Audited)
<b>Financial assets</b>				
Available-for-sale financial investments:				
Available-for-sale investments	<b>363,650</b>	913,650	<b>363,879</b>	916,055

## 22. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS (Continued)

Management has assessed that the fair values of cash and cash equivalents, pledged deposits, the current portion of trade and bills receivables, trade payables, the current portion of financial assets included in prepayments, deposits and other receivables and the current portion of financial liabilities included in other payables and accruals approximate to their carrying amounts largely due to the short term maturities of these instruments.

The Group's corporate finance team headed by the finance manager is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The corporate finance team reports directly to the chief accountant. At each reporting date, the corporate finance team analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the chief accountant. The valuation process and results are discussed with the senior management twice a year for interim and annual financial reporting.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values.

The fair values of the non-current portion of trade and bills receivables, the non-current portion of financial assets included in prepayments, deposits and other receivables and the non-current portion of financial liabilities included in other payables and accruals have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities.
